

The Host: A Novel

The author of the Twilight series of # 1 bestsellers delivers her brilliant first novel for adults: a gripping story of love and betrayal in a future with the fate of humanity at stake. Melanie Stryder refuses to fade away. The earth has been invaded by a species that take over the minds of their human hosts while leaving their bodies intact, and most of humanity has succumbed. Wanderer, the invading soul who has been given Melanies body, knew about the challenges of living inside a human: the overwhelming emotions, the too vivid memories. But there was one difficulty Wanderer didnt expect: the former tenant of her body refusing to relinquish possession of her mind. Melanie fills Wanderers thoughts with visions of the man Melanie loves-Jared, a human who still lives in hiding. Unable to separate herself from her bodys desires, Wanderer yearns for a man shes never met. As outside forces make Wanderer and Melanie unwilling allies, they set off to search for the man they both love. Featuring what may be the first love triangle involving only two bodies, THE HOST is a riveting and unforgettable novel that will bring a vast new readership to one of the most compelling writers of our time.
