

The Sentient (UNITY) (Volume 3)

What if the worlds savior isnt who he says he is? What if even he doesnt know what he is and what Officium did to him? What if he cant remember? With so much resting on his shoulders, can the resistance underpin their new leader? Or is the damage irreversible? The Operators many secrets are about to be unleashed on the survivors among UNITY. With all questions answered, will the truth provide closure or create more problems to deal with? What happened in the 2020s that Seraph still doesnt know about and how will she react when she finds out the truth? In this conclusion, the resistance are split up between several continents at once as they fight to survive the final remnants of Officiums devastatingly inhumane legacy.
