

A New Heavens in Implicit and Learned Archaic Symbols (Mythology)

The New Heavens is my third volume to a topic of the heavens. It specific compares and contrast a 1st to a 2nd Biblical Covenant; so to theorize Dolphin Man to head into a heart/mind basis of a sentience, and to thus to not be found at only a statement of a name and home. I present the ancient format of these to allow an otherwise word defying basis of images to communicate. I present a conceptual English form; including antonyms, a derived set of metaphor sequences and a personally generated international form to a language process. I quote the Biblical Books of Jeremiah and Paul in his letters to the Roman versus Hebrews. I thus consider attempts of neighbor attempting to instruct or insist of who the Lord is. The extracted basis to downplay such provides some verse quotes. I extensively consider the process to start a heavens anew, and review theory of the process. The last four Chapters of the Book of Revelations are quoted; such as to compare a departure of a Wise Man set of standard. The comparison is made of a god to live amongst an earth people, or in fact to live only of a persistent flow of the glory to god sourced images. I review the eternal entities of the heavens by the names of god and goddesses, and to assess alternative to only a white and innocent god. Consideration of illness and/or genetic mutation to actually create sentient creature is provided; while I name the Archangel Raphael to be assigned the task to oversee the process.
