

## The Occuscript: Book One of The Gems of Gailan Series

Deep in a cavern, within the mysterious forests of the Wilds, an amazing book is found. Its table of contents will taunt readers as page after page appears frustratingly blank. A select few will find a single leaf visible to them with runes and symbols magically granting all knowledge of a particular expertise. Physicians will cure the infirm, warriors will become individual forces of destruction and dragons will--once again--have their riders. But the titles of the books last three chapters will attract the attention of powerfully evil forces, fueling intrigues, battles and prophecy-driven quests. Ominously, the last page remains untitled. Onyx-driven folk plot to seize the book for their own dark purposes while the Pearl-driven struggle to fulfill prophecy and deliver it to its required destination. For it is there, in Castle Ironhinge, that the one who must pen The Last Chapter awaits the burden of delivering their world from certain annihilation.
