

Blinded (The Tenderfoot Series) (Volume 2)

Heart, hand, and sword - that's what I promised Jules. I was nineteen years old. What did I know? Sure, I'd noticed Jules was slightly unusual. Like she always knew where I was and how I felt. Yeah, it was odd, but it was also kind of romantic. One day, I'd even caught her fighting telepathically with Nick, her trainer. Not that I was surprised, because she was different from other girls - and who wouldn't find something to fight about with that guy? Frankly, the only one who needed training was him, starting with manners and ending with butting out. But Jules made it clear they were a package deal and that was that. Then a creature from Nick's past attacks Jules. She won't rouse from sleep, her coma a reaction to a magic spell. It gets worse. She pulls me into her dreams - old memories that reveal her secrets. I fear Jules might be alone in them forever unless we find a way to remove the magic dagger wrapped around her wrist. There's only one thing I can do. Get in the car with Nick and pray we get help in time... Told from Andrew's point of view, this New Adult Urban Fantasy story explores the depths of love, anger, and college-age friendship. Blinded is the second book in The Tenderfoot Series.
