

## The Exo-Frame [Book Four]

When its the wise guys versus the wise men, its going be Armageddon!The Exo-Frame Series begins with a nail-biting espionage-thriller laced with the misanthropic agendas of a new Presidents Campaign Contributors; -and is comprised of several of the Authors most popular independent titles- the first half of the novel being comprised of The Pink Detective and Enduring Returns; which stages the OS Corporations Metropolis debacle involving the Cadavarice sequence. Cryptic represents the ever-popular conclusion to the first novel, but introduces the agenda of Horace Lundstrom; another of the crime syndicates enterprising Founders- or illustrates the practicality of the management techniques being employed by the syndicate. The second novel of the series is comprised of the Authors most-successful Trilogy; the Gammaverse Trilogy, -a series which depicts the consequence of the C.G.I. R.A.M.-Clouds creation; or role, in the highly-contrived Armageddon event cycle that has been created to assist the syndicate with the implementation of their primary agenda: the control of the Earths emerging space economy. Book Three introduces The Temporal Collective, and is concluded, along with the artificial Apocalypse, by Dirty Chip and Uncle S.A.M.; leaving the remnant security features of the MJ-12 Program intact, but the crime syndicates leadership in tatters. Book Four is especially popular comedy entitled The Cosmos Line [most often read as The glitch must reside elsewhere]; and showcases the Telco Corporations effort to regain some measure of control over the chimeric monster that they have created. Book Five; The Dragon of Unwise Children, concludes the series and revolves around a third-partys investigation of the Industrial Entertainment Complex as he burns this temple to the ground.For the interested, we also maintain a very
