

The Benefits of RV Living

After living in 5th wheel for four years with my wife and dog, I wanted to give people an idea of what RV living is all about. It may not be what you think, and it could possibly change your life for the better.

Escaping the expensive apartment scene may be something you didn't think was possible. RV living is cheaper and allows for more freedom than most apartments. It also has some benefits that a house doesn't even give, like the ability to relocate without packing!

This small guide will provide some insight into the idea of RV living as a good alternative from apartment living. Get away from the restrictive no pets rule and the crowded noisy apartments where you have no yard or privacy outside, and escape to an RV park where you can have a small dog, sit out on your porch with a small yard, and have no neighbors on the other side of the wall. This guide will answer some questions for the person who has never thought about RV living, and it may just change your life! And if you've thought about RV living, this may give you the motivation to finally do it. From my experience it has changed my life for the better.
