

# Transactions of the Jenner Institute of Preventive Medicine

This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1899 Excerpt: ... ON A NEW PATHOGENIC STREPTOTHRIX. BY GEORGE DEAN, M.B. From a review of the recent literature on the subject of Actinomyces and of the Steptotricheae<sup>1</sup> one is driven to the conclusion that actinomyces is a term used to include several different species of micro-organisms. Hitherto, there has been a tendency to accept the histological demonstration in the tissues or discharges, of club-shaped organisms with a rosette arrangement, as sufficient proof that the pathological condition under consideration was due to the presence of one definite organism, the actinomyces; but recent researches have demonstrated that any such inference is unsafe. The existence of filamentous forms with club-shaped swellings on their ends, arranged in rosette fashion, has been shown by several observers to belong to widely different organisms. Thus, Professor Max Gruber<sup>2</sup> has described an organism, the *Micromyces Hofmanni*, discovered as an accidental <sup>1</sup> Since this paper was sent in for publication, a number of communications relating to this subject have appeared. Thus, Lubarsoh, *Zur Kenntniss der Strahlenpilze*, and Schulze, *Über die Strahlenpilzformen des Tuberculoseerregers*, *Zeitschr. f. Hygiene u. Infektionskrankheiten*, Bd. xxxi., Ht. 1, 1899, have shown that a number of organisms, e.g., the *Streptothrix Eppingeri*, the Timothy Grass bacillus, etc., when introduced into experimental animals by the methods suggested by Friedrich and Babes or by direct inoculation into the kidney give ray fungus forms. Levy, *Über die Actinomyces gruppe (Actinomyceten) und die ihr verwandten Bakterien*, and

Bruns, Zur Morphologie des Actinomyces, Centralblatt f. Bacteriologie, Bd. xxvi., No. 1. The latter describes a form of Actinomyces with certain peculiar features. It was altogether non...
