

A Summit of Tumultuous Winds

A Summit of Tumultuous Winds is set in a fantastical, quasi-historical China weakened by poor government and rebellion within, attacked by barbarian hordes without, and prostrate as a superior power from the West approaches. Authors note: I admit to taking extensive creative license with historical details in order to best fit the story. I mean absolutely no disrespect to the actual countries which have inspired this story, and have only used their names in order to give readers as well as myself some background to go by.
